Every Corolla offers outstanding performance, safety and is packed full of features. So whether you're zipping down to the shops or cruising down the highway, Corolla is tailor-made to meet the demands of a modern lifestyle. With its spacious interior, luxurious appointments and uncompromising styling, Corolla is built for a lifetime of goodtimes.

Sporty, agile and good looking.

Corolla is more than just eye-catching and dynamic on the road. With its low, wide stance, it's taken on a whole new dimension of style with an exciting array of exterior finishing touches and features.

Every Corolla looks sharp with matching body colour bumpers front and rear, complemented by the gleaming presence of a chrome grille to lead the way, or the stylish black and body coloured grille featured on the Ascent Hatch.

Up front you'll find LED headlamps with Daytime Running Lamps (DRLs) on the ZR Sedan and High Intensity Discharge (HID) headlamps on the Levin ZR Hatch, while at the rear, the bright LED tail lamps on all Corolla Sedans will help keep you safe and seen in all conditions.

The smooth aerodynamic lines of Corolla Sedan are an elegant extension of Corolla Hatch with all of its refinement and attention to detail. The added enhancements include 16" alloy wheels and chrome exterior door handles on the SX Sedan.

Plus on the ZR, the LED headlamps with Daytime Running Lamps (DRLs) will light the way on the darkest nights.

With sumptuous front bucket seats standard across the range including a luxurious leather accented interior in the Levin ZR, you'll always be travelling in style.

The six speaker CD tuner audio system with USB input for iPod®[1] and MP3 players[2] comes standard across the Corolla range with Bluetooth®[3] functions for added flexibility, stepping up to the luxury of a 6.1" touch screen audio system with Satellite Navigation[4] and traffic avoidance system[5] in the Levin ZR Hatch and ZR Sedan.

Steering wheel controls put everything you need at your fingertips, including audio controls, Multi Information Display (MID) and phone connectivity. And in the Levin ZR, you'll feel like you can touch the stars shining through the optional Skyview™ roof.

You'll also find plenty of flexible luggage space with the 60:40 split fold rear seat, allowing you to quickly and easily load a little or a lot.

The spacious Sedan.

The Corolla Sedan interior features all the creature comforts of Corolla Hatch within a sleek and stylish four-door sedan.

When driving on the open road, you'll enjoy the convenience of cruise control. Upon reaching your destination, the reversing camera[6] and back sonar reverse parking sensors[6] will help you park with a minimum of fuss.

Then when it's time to load up with luggage and personal items, Corolla Sedan features a generous and convenient 470 litre boot capacity.

And in the ZR Sedan, you'll have the one-touch control of a steering wheel mounted sequential paddle shift for the 7-speed Multi-drive transmission, the luxury of leather accented interior and a 6.1" touch screen audio system with Satellite Navigation[4] and traffic avoidance system.[5]

Advanced performance and efficiency.

Corolla has evolved into an agile and sporty drive that promises a dynamic driving experience. Genuine performance and admirable fuel efficiency[7] are delivered with equal ease from the 1.8L 2ZR-FE engine featuring Dual Variable Valve Timing with intelligence (VVT-i) technology that's under the bonnet of every Corolla. This highly advanced engine uses continual variations to the intake valve timing to improve drivability, performance and fuel efficiency, while also reducing emissions by continually varying the exhaust valve timing.

Choose between the 6-speed manual (all models except ZR Sedan) and the 7-speed Multi-drive transmission.

Safety without compromise.

You can drive with confidence knowing every Corolla is equipped with a range of advanced safety features and comes with a 5-star ANCAP safety rating. To start with, you'll have the reassurance of seven SRS airbags to protect the driver and passengers.

The Anti-lock Braking System (ABS) uses electronic controls to help prevent wheel lock-up and skidding. Vehicle Stability Control (VSC) helps ensure stability should you experience any oversteer or understeer when cornering. And Traction Control (TRC) automatically controls engine output or applies the brakes to any wheel that's skidding on slippery surfaces or where there's variable grip. And on Hatch models, the emergency brake signal alerts trailing vehicles if you're forced to make a sudden stop.
